THE PROFIT TAKER PROGRAM

Use of a Novel Nanotechnology Platform to improve Patient Clinical Outcomes and the Profitability of your Dental Practice

- Evidence-Based Clinical Practices & Proprietary Protocols
- Targeted Antimicrobial, Wound Healing NanoMetallic Silver Oxide technology
- 17 Years of Extensively Researched Clinical Data + Peer Review + Meta Analysis
- Utilizes Federal & State recognized R&D Tax Programs
- Increased Bottom Line & New “ Free Cash Flow Inversion” Model

In 2023, the Primary Drivers Impacting Profitability of your Dental Practice include:

- Increased Rates of Inflation, Interest and Corp Taxes
- Increased Staff Wages/ Staff Shortages
- Ballooning Overhead Costs (materials, supplies, equipment)

ALL of these Financial Influences are DRIVING YOUR CORPORATE PROFITS DOWN!

EXAMPLE OF IMPROVED HEALING OUTCOMES with NANOTECHNOLOGY...

GTR Tunneling Bone Graft Procedure using OraSIL NanoMetallic Silver Products and Protocols.

GTR Tunneling Bone Graft Procedure on Patient (88yoa): Unprecedented 72 hour Post Surgical Healing with Bone Allograft/Collagen/PRF/PTFE Membrane and application of OraSIL® NanoSilver. Surgery performed by Dr. Jim Yeganegi, Vancouver, BC, Canada. Note almost complete primary tissue closure OVER the PTFE membrane after only 3 days!

Experience Improved Clinical Results as well as true Financial Gains for your Clinical Practice with:

- A Novel Nanotechnology platform delivering improved patient safety, efficacy, and performance.
- An ingenious Program developed, researched, and successfully implemented by many full time practising General Dentists and Specialists.
- A broad-based, targeted Antimicrobial - Wound healing agent capable of mitigating / reducing pain, inflammation, infections and their associated post surgical complications and risks.
- Utilization of US Tax R&D Form 6765 and specific NanoMetallic Silver protocols allow you to file for Qualified Research Expenses from performing R&D resulting in large Corporate Tax Credits.

“The single biggest advantage to this Program is just how seamlessly and rapidly it is able to combine improved healing outcomes for my patients with tangible financial gains for my dental corporation.”

- Dr. Andrew Willoughby, DMD, LVIF, FICCMO, FICOI, FAACFP, MICCMO

IT'S NOT ABOUT WHAT YOU MAKE BUT ALL ABOUT WHAT YOU TAKE!

Work Less - Improve Patient Outcomes - Receive R&D Tax Credits and Significantly Increase your Bottom Line!

The Profit Taker Program will qualify your Dental practice for lucrative Tax R&D remittances, as this proprietary NanoMetallic Silver Oxide technology platform helps you address multiple Technological Uncertainties associated with nearly ALL Dental procedures:

- Pain
- Wound healing
- Antibiotic Resistance
- Aerosol Generating Procedures
- Chemotoxic Ingredients
- Infection (bacterial, fungal and or viral)
- Smear Layers
- BioFilm
- Disinfection
- Inflammation

This Full day lecture series will be moderated by Dr. Gerald Curatola, DDS, a highly regarded Biological/Restorative Dentist, Author and International Lecturer who is an outspoken critic of many commonly used chemo-toxic ingredients in Dentistry. Together, we will explore the science behind a highly unique Nanotechnology platform and explain how it not only improves patient outcomes but by combining it with specific Tax R&D initiatives can also have a huge impact on the profitability of the Dental practice.

Our Dental team is led by Dr. Andrew Willoughby, General Dentist, Clinical Researcher, Regulatory Consultant, Author and Founder of VeraSIL Therapeutic Research Inc. Over the past 17 years, Andrew has utilized this Nanotechnology in thousands of surgical and restorative dental procedures and has created a robust methodology and platform of data-driven results to improve both patient and financial outcomes for his practice. Thanks to the combined use of Tax R&D and this Nanotechnology, Dr. Willoughby is one of the most profitable solo dental practices in the country.

The Tax R&D experts at Soulece Tax & Wealth Advisors will explain how this ubiquitous Nanotechnology platform allows Tax R&D activities to be broadly and robustly used in any Dental Office and how it is capable of creating a “Free Cash Flow Inversion” position.

Mr. Timothy Brown will provide a rapid-fire Q&A Session at the end of the morning’s lectures to explain the profound financial impact that this VeraSIL Program can have on practice valuations and the FCFlow/Profit of the dental business. A similar Q&A will be held at the end of the day by Drs’ Willoughby, Curatola, Malin ,Mudrow and the Soulece team.
